

SUCCESS FOR THESE FOSTERED CATS

Many more are still looking for their forever homes!

We may have anything from tiny kittens to those who are in their twilight years. You can make all the difference to their re-homing opportunities by giving them a temporary loving environment whilst we find their forever home.

East Berks RSPCA does not have its own premises so relies on private catteries. Whilst we work together with the great staff at the catteries, some of the cats are traumatised, sad, confused, poorly or just too young to be left there.

Those pictured above feature a terrified little lady thought to be un-homeable until fostered, a tiny kitten lovingly reared with his siblings and a beauty with a difficult temperament and an ongoing illness all happy in their forever homes thanks to the love and care of our fosterers.
